### Wednesday Night Ministry

**Context:** Team

**Focus:** Character/Competencies

Every Wednesday night your team will either be taking active helper/leadership roles in LFF children's ministry or youth ministry (each ministry has an established leader with whom you will be working), or you will be attending or producing a class.

You will be asked to be there on time and to be prepared for the demands and opportunities that each night brings. Your involvement in these roles will require prep time that is not planned out for you. You must therefore maintain your other responsibilities as well as find time to plan for your Wednesday night involvement.

As the year goes on, you may be asked to take more leadership in certain roles within each ministry. Your character will be tested by the increasing demands that are placed on you.
